

SECURITY FOR HEALTHCARE

Protect Patients. Stay Compliant. Win Hospital Bids.

HIPAA-compliant security design that meets the unique demands of healthcare facilities — from infant protection to pharmacy monitoring, all built in.

+ COMPLIANCE SPOTLIGHT — BUILT INTO EVERY PROJECT

✓ HIPAA Physical Safeguards (§164.310)

✓ Joint Commission (JCAHO) Requirements

✓ CMS Conditions of Participation

✓ ADA Accessibility Standards

✓ Infant Abduction Prevention (Code Pink)

✓ Behavioral Health Ligature-Resistant Req.

✓ NFPA 101 Life Safety Code

HEALTHCARE SECURITY SYSTEMS

Patient Area Monitoring

ICU, ER, and behavioral health surveillance with built-in privacy masking

Infant Protection

RFID tagging, elevator lockdown, and zone-based alerts for Code Pink

Access Control

Department zoning, pharmacy lockdown, and OR restricted-access management

Nurse Call Integration

Code Blue, Code Pink, and staff duress notification workflows

Pharmacy & Medication

DEA-compliant controlled substance monitoring and chain-of-custody tracking

Fire & Life Safety

NFPA 101 compliant notification and evacuation management systems

WHY HEALTHCARE INTEGRATORS CHOOSE US

HIPAA Auto-Applied

Compliance rules baked into every project from day one — no manual checklists

Harvey AI for Healthcare

Understands healthcare-specific terminology, codes, and facility requirements

Admin-Ready Proposals

Proposal Maker generates documents hospital administrators expect to see

RFP Parsing in 90 Min

Bid Intelligence breaks down complex hospital RFPs and flags requirements

See Healthcare Solutions Live at Booth 8122

Walk through a hospital security design — from HIPAA compliance to branded proposal in minutes.
