

SECURITY FOR GOVERNMENT & FEDERAL

Federal-Grade Compliance, Built In

Design NDAA-compliant security systems with **automated compliance checking** across **25 frameworks**.

MAJOR COMPLIANCE FRAMEWORKS

NDAA §889

Banned manufacturer detection

NIST 800-53

Federal information systems

DISA STIGs

DoD hardening standards

CMMC

Cybersecurity maturity model

HSPD-12

Personal identity verification

FICAM

Identity, credential, access mgmt

ITAR / EAR

Export-controlled technology

FedRAMP

Cloud security authorization

GOVERNMENT SECURITY SYSTEMS

**Facility Perimeter**

Anti-vehicle barriers, fence detection, PTZ surveillance

**Identity Verification**

HSPD-12/PIV card readers, biometrics, mantrap entries

**SCIF / Secure Areas**

Tempest-rated, RF shielding, compartmented access

**Video Surveillance**

NDAA-compliant cameras only, analytics, retention policies

**Cybersecurity**

Network segmentation, encrypted streams, DISA STIG compliance

**Intrusion Detection**

Classified area monitoring, tamper detection

**NDAA Compliance Engine**

Every product in our **195K+ database** is flagged for NDAA Section 889 compliance. Harvey AI automatically filters banned manufacturers and suggests compliant alternatives.

See Federal Compliance Demo at Booth 8122

Walk through a live NDAA compliance audit — from product selection to final certification report.
