

## BID DAY SURVIVAL GUIDE

# Win More Bids. Lose Less Sleep.

How Bid Intelligence turns 12-hour bid marathons into 90-minute workflows.

## THE BID DAY PROBLEM

**300+ Page Bid Packages**

Specs, drawings, addenda buried in a zip file you opened 10 minutes before the call.

**12-Hour Analysis**

Manual parsing of Div 27/28, device counts, and compliance — line by painful line.

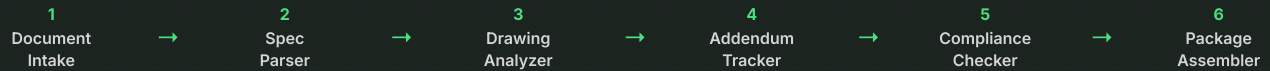

**Missed Details = Lost Bids**

One overlooked addendum or spec revision costs you the entire project.

## THE BID INTELLIGENCE SOLUTION

6 AI Agents Working in Parallel

## WHAT YOU GET IN 90 MINUTES

**Executive Summary**

Readiness score, key blockers, and go/no-go recommendation at a glance.

**Device Counts**

Aggregated across all drawing sheets — cameras, readers, panels, devices.

**Spec Content**

Full spec sections with trade filters and manufacturer approval badges.

**Compliance Flags**

Confidence scores and source citations for every compliance requirement.

**Addenda Comparison**

Before/after diffs with impact levels — never miss a revision again.

**One-Click Export**

Push directly to Estimator Hub or RFP Response Center — zero re-entry.

## MANUAL PROCESS

**6-12 hrs**

~60% accuracy

## BID INTELLIGENCE

**30-90 min**

~95% accuracy

**Human-in-the-loop guarantee:** Every compliance flag includes confidence scores, source citations, and requires human confirmation. AI assists — you decide.

**Upload a Bid Package Live at Booth 8122**

Bring a real bid package and watch Bid Intelligence process it in real time.
