

MULTI-TRADE PLATFORM

One Platform. Four Trades. Zero Re-Entry.

Security, AV, IT/DataCom, and Fire Alarm — designed, estimated, and proposed in a single unified workflow.

SUPPORTED TRADES

**SECURITY & CCTV**

- Cameras & VMS
- Access control
- Intrusion detection
- Intercoms
- NVR / storage

**AUDIO / VISUAL**

- Displays & mounts
- Speakers & DSP
- Control systems
- Conferencing
- Digital signage

**IT & DATACOM**

- Structured cabling
- PoE switches
- Fiber & racks
- Patch panels
- WAPs

**FIRE ALARM**

- Detection devices
- Notification
- Panels
- Pull stations
- Monitoring

△ The Problem With Separate Tools

- ✗ 4 different spreadsheets for 4 trades
- ✗ Manual data re-entry between systems
- ✗ Inconsistent pricing and formatting
- ✗ No cross-trade visibility for PMs
- ✗ Separate proposals confuse clients

✓ The Design Right AI Advantage

- ✓ Single BOM across all trades
- ✓ Shared infrastructure auto-calculated
- ✓ Cross-trade bundling discounts applied
- ✓ One unified proposal with trade breakdowns
- ✓ Client sees total project cost, not 4 quotes

15-25%**Shared Infrastructure Savings**

When trades share pathways, racks, and network equipment — savings are calculated automatically

195K+**Verified Products**

Across all 4 trades with real-time distributor pricing from major manufacturers

Stop Juggling Four Tools

See how one platform handles Security, AV, IT, and Fire Alarm — together.
